**ABCs OF MEDICARE!**

**Have Questions about Medicare? Get Answers!**

Original Medicare began in 1965 and was pretty straightforward and easy to understand. Part A paid for hospital, Part B paid for doctors' appointments.... And beneficiaries picked up a Medicare Supplement Insurance policy to fill any gaps. Simple.

Fast forward to present day and the tremendous influx of Medicare Advantage (Part C) and prescription drug options (Part D) have added so many choices for Medicare beneficiaries. It's quite confusing to try to sort through the alphabet soup.

The Elder Benefit Specialist program now offers "ABCs of Medicare" workshops throughout the year for Jefferson County residents who will be newly eligible for Medicare. These workshops are ideal for people who will be turning 65 in the upcoming months and will be newly eligible for Medicare.... But they are also very helpful to ANY Medicare beneficiary who has questions or concerns on the newly complicated Medicare options and benefits.

Please contact the Aging and Disability Resource Center at 920-674-8734 for more information about 2019 ABCs workshops held at the Aging and Disability Resource Center and sites in the community!
